

Company Profile

Equip - Hotel Supply Company Ltd. is a firm specializing in the import, sale and supply of a full range of foodservice and hospitality equipment for the operation of hotels, event venues and restaurants. Our widest selection of products, ranking first in the local market, provides buyers and developers with a one- stop purchasing of quality products at competitive prices.

Equip was founded in 1999, and has ever since emerged as a leading company in the hospitality industry. Israel Segal, the manager, brings to the company a broad scope of experience in the field. His expertise and the firm's professional experienced personnel have gained the company a strong reputation in the industry.

Equip facilities comprise a new and spacious showroom, the largest in the country, stretching over a 600 sqm space, creating for our clients a great shopping experience. In addition, the facilities include a 2000 sqm logistic warehouse space.

Equip represents major brands in the field, and is associated with an array of manufacturers' agencies by exclusive dealership supply contracts. The majority of our products are direct-import assuring our customers the most cost-effective solutions for the item selected.

Equip specializes in providing Turnkey Projects Services – offering comprehensive services form the initial design phase to the final delivery and installation, for a successful completion of a project. Additionally, we specialize in providing projects' purchasing and budgeting solutions, directly supervised by Israel Segal, a purchasing professional whose proven 30 years track record in local and international projects execution is a testament to his extensive capabilities.

Equip specializes in providing hotel furnishing and supply services. Our company represents world's top manufacturers and has successfully recently delivered, including supply and installation the following projects: Waldorf Astoria – Jerusalem, Ritz Carlton – Herzliya, Royal Beach- Tel-Aviv, Carlton – Tel-Aviv, and Cramim- Kiryat Anavim.

For further information please contact our sales representatives.

ARAVEN Spain GASTRONORM Polypropylene Containers

are especially resistant, 100% airtight with translucent light purple color designed and manufactured for food preservation and labeling

enabling quick identification of contents, such as information about Gluten/eggs/peanuts/dairy products and other products' sensitivities.

Araven containers are available in GASTRONORM measurements, up to 200 mm tall and (up to 1/1 size).

ARAVEN containers include a lid and permanent labels enabling personnel an easier inventory and date control record.

Polypropylene Containers

in GastroNorm Pans' Sizes

The polypropylene line of food pans has few advantages over polycarbonate containers. Polypropylene is more resistant, represents better elasticity, and is complete with a special 100% airtight closing system, color clip identification set (red, yellow, green and blue) and an identification label. **And it's cheaper.**

EQUIP has currently started to distribute  Spain Polypropylene food containers.

In accordance with the requirements of the European HCCP regulations, since 2014, Polycarbonate containers will be substituted by Polypropylene containers.

ARCOS - Nitrum series is made of a new exclusive steel available only in ARCOS knives steel. This new formula provides more hardness and resistance to corrosion, and resistance to corrosion enhances cutting power and improves the blade durability. Nitrum series was designed for high usability and is available in 7 colors for easier identification of the different uses and for maintaining high food safety and hygiene standards in the kitchen.

Maintaining high food safety and hygiene standards in the kitchen.
